

BUILDING FOUNDATIONS FOR AN EMERGENT INDUSTRY

Crude Oil on Rail Enterprises (CORE) is a member alliance of individuals and companies involved in the Crude By Rail (CBR) business, who have come together to provide a mutually beneficial and broad-reaching source of information, educational services, products and technologies. CORE members work together to assist their customers by mutually co-developing marketing strategies, educational programs, conferences and workshops.

The CORE alliance provides a single point of contact for companies or individuals seeking guidance, project assistance, products or services in the rapidly developing and expanding Crude By Rail business. CORE provides a turnkey virtual service organization, where companies can go to find one-time advice to full service solutions, provided by the various members of CORE.

Regularly scheduled CORE “Summits”, conferences and workshops provide the opportunity for interested companies to participate in industry updates, presentations and social interaction. CORE is structured as a mutually-beneficial arrangement between its various members and operates with the following objectives:

- To provide clients with a single source for all CBR services and products
- To provide clients and industry with CBR information and knowledge
- To enable like-minded companies to offer products and services in a new way
- To enable member companies to “co-market” their products and services

CORE members are committed to our shared values of Honesty and Integrity, Pursuit of Mutual Benefit, Customer Service Commitment, Quality Relationships and Teamwork. We collectively pursue our objectives of helping our customers to achieve improved Efficiency, effective Safety programs and maximum use of appropriate Technology, the central themes of our summits, conferences and workshops.

CORE is led by a seven member Board of Directors and is structured to include the following industry categories: Logistics; Engineering & Construction; Technology; Facility/Operations; Testing, Inspection, Verification & Environmental; and Consulting Services.
